Sequence 55, Application US/08290448A

Patent No. 5698204

GENERAL INFORMATION:

APPLICANT: Rogers, Bruce

APPLICANT: Rapers, David G.

APPLICANT: Ranar, Thorun

APPLICANT: Kuo, Mei-chang

TITLE OF INVENTION: Allergenic Proteins From Ragweed and Uses

NUMBER OF SEQUENCES: 93

CORRESPONDENCE ADDRESS:

ADDRESSE: LAHIVE & COCKFIELD

STREET: 60 State Street, suite 510

CITY: Boston

CITY: Boston

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

CLASSIFICATION 1424

PRIOR APPLICATION DATA:

APPLICATION NUMBER: 08/350,225

FILING DATE: December 6, 1994

ATTONNEY/AGENT INPORMATION:

NAME: Jane E. Remillard

REGISTRATION NUMBER: 38,872

REFRENCE/DOCKET NUMBER: 025.6 USD2 (IMI-028CPD2)

TELECOMMUNICATION INFORMATION:

TELEPRAX: (617) 227-7400

TELEPRAX: (617) 227-5941

INFORMATION FOR EQUID NO: 51:

SEQUENCE CHARACTERISTICS:

LENGTH: 20 maino acids

LENGTH: 20 maino acids
                                                                                                                                                                                                                                                                                                                                                    025.6 USD2 (IMI-028CPD2)

LENGTH: 15
                                                           Sequence 35 Application US/09014416

Patent No. 6153421

GENERAL INFORMATION:
APPLICANT: Yanagi, Masayuki
APPLICANT: Bukh, Jens
APPLICANT: Bukh, Jens
APPLICANT: Emerson, Susanne U.
APPLICANT: Emerson, Susanne U.
APPLICANT: Purcell, Robert H.
TITLE OF INVENTION: CLONED GENOMES OF INFECTIOUS HEPATITIS C VIRUSES AND
TITLE OF INVENTION: USES THEREOF
FILE REPERENCE: 20264276
CURRENT APPLICATION NUMBER: US 60/053,062
CURRENT FILING DATE: 1998-01-27
EARLIER FILING DATE: 1997-07-18
NUMBER OF SEQ ID NOS: 65
SOFTWARE PATENTION OF: 2.1
SEQ ID NO 35
LENGTH: 19
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    ö

APPLICANT: Wanne, Akinori
APPLICANT: Wanne, Akinori
j APPLICANT: Wanne, Akinori
TITLE OF INVENTION: Peptide-Based Immunotherapeutic Agent for Treating Allergic Disea
TITLE OF INVENTION: Peptide-Based Immunotherapeutic Agent for Treating Allergic Disea
TITLE OF INVENTION: 1998-09-09
FILE REFERENCE: SPO-103
CURRENT FILING DATE: 1998-09-09
PRIOR PRIOR DATE: 1997-009
PRIOR FILING DATE: 1997-03-10
NUMBER OF SEQ ID NOS: 174
SOFTWARE: PatentIn version 3.1
SEQ ID NO 75
ILENCTH: 15

TITLE OF INFORMATION: Peptide-Based Immunotherapeutic Agent for Treating Allergic Disea

TITLE OF INFORMATION: Peptide-Based Immunotherapeutic Agent for Treating Allergic Disea

TITLE OF INFORMATION: Peptide-Based Immunotherapeutic Agent for Treating Allergic Disea

TITLE OF INFORMATION NUMBER: US/10/354,240

CURRENT FILING DATE: 1999-03-10

PRIOR APPLICATION NUMBER: PCT/JP97/00740

PRIOR APPLICATION NUMBER: US 09/142,524

PRIOR PILING DATE: 1999-09-09

NUMBER OF SEQ ID NOS: 174

SOFTWARE: PatentIn version 3.1

APPLICANT: Iwama, Akiko
APPLICANT: Iwama, Akiko
APPLICANT: Kino, Kohauke
TITLE OF INVENTION: Peptide-Based Immunotherapeutic Agent for Treating Allergic Disea
FILE REFERENCE: SPO-103
CURRENT APPLICATION NUMBER: US/09/142,524D
CURRENT FILING DATE: 1998-09-09
PRIOR PILING DATE: 1997-03-10
NUMBER OF SEQ ID NOS: 174
SOFTWARE: PatentIn version 3.1
SEQ ID NO 77
LENGTH: 15
TYPE: PRT
CORGANISM: Cryptomeria japonica
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                Sequence 54, Application US/08290448A
Patent No. 5676594
